

BRIGHTERWAYLIVE
Training With Purpose

3-DAY LIVE COMPREHENSIVE IMPLANT TRAINING

2024
OCTOBER

16-18

2024
DECEMBER

4-6

Dr. Todd Erickson & Dr. Alice Hsieh

BRIGHTER WAY DENTAL CENTER
PHOENIX, ARIZONA

This 3-day course will be comprised of intensive didactic lectures and hands-on exercises that complement the presentations. Patient selection parameters and surgical techniques will be covered in detail. In addition, a significant portion of performing contemporary dental implant treatment involves the use of new technology. Therefore, the topics covered will include the use of state-of-the-art equipment, such as, CBCT imaging, specialized treatment planning software, intraoral scanning, 3D printing of surgical guides, and the use of autologous, concentrated growth factors, PRF.

You will learn about

- Understand the principles and applications of CBCT Imaging Technology in dental implant treatment planning and diagnosis.
- Utilize software for effective and proper Treatment Planning.
- Master Intraoral Scanning for accurate digital impression (with Medit i700) taking and merging with CBCT scan.
- Know the different types of Surgical Guides and the protocol steps of Guide Design.
- Gain a comprehensive overview of 3D printing technology (using Sprinray printers).
- Assess and select patients for dental implant procedures based on clinical and medical factors.
- Acquire the knowledge of Surgical Treatment protocol from A-Z.
- Understand the benefits and applications of Platelet Rich Fibrin (PRF).
- How to implement and manage proper post-operative protocols and potential complications.
- Perform live patient treatments demonstrating acquired knowledge.

About the Course Director

Dr. Todd Erickson

Dr. Todd Erickson is the Director of Education at Brighter Way Dental Center. In addition, he is also the Director of the Comprehensive Oral Implantology Residency program at Brighter Way, which is an affiliate training center for Jacksonville University's newest post-doctoral, dental education program.

Dr. Alice Hsieh

Dr. Alice Hsieh is a highly skilled board-certified prosthodontist who specializes in cosmetic dentistry and implant dentistry. She is also trained in the surgical placement of dental implants.

● Day 3

07:30am - 09:00am	Pre-surgical case discussion and Treatment planning
09:00am -	Live Implant Surgery

POLICY AND IMPORTANT INFORMATION

- 50% of registration fee is due at time of registration for the Brighter way course. This is important because all Brighter Way live surgical programs are only two to eight dentists.
- Brighter Way's cancellation fee is \$500 up to forty-five (45) days prior to each program. After that date, there will be no refunds issued due to scheduling of patients, anesthesiologists and securing clinic treatment rooms.
- Brighter Way may cancel courses up to thirty (45) days prior to the first day of the event.
- The full registration amount will be refunded for courses cancelled by Brighter Way.
- Brighter Way is not responsible for travel costs incurred for cancelled courses. Please take this into consideration when scheduling flight and hotel arrangements.
- All attending dentists must be U.S licensed and in good standing to receive a temporary Arizona dental license.
- All dentists must have a temporary Arizona dental license issued by the Arizona dental board. This temporary license is good for 14 days over two years.
- Attending dentists are covered under the good Samaritan act in Arizona. Brighter Way requires that each attending dentist notify their malpractice insurance provider about the program.
- The number of implants or procedures are not guaranteed due to the different level of clinical skill and experience by the attending dentists. Brighter Way will do everything possible to ensure that each doctor experience multiple surgical procedures.
- Brighter Way recommends that each attending dentist bring an assistant to the program.
